PROFESSIONAL EXPERIENCE

Materials Lab Technician

Dec 2014- Present

Black Eagle Consulting

- Responsible for processing and classifying soils and materials for uses in construction through different American Society for Testing Materials (ASTM) approved laboratory tests.
- Providing quality assurance and quality control work for numerous projects, including Tesla Gigafactory, Switch Data Center, Virginia Street Bridge, and Southeast Connector by means of associated ASTM tests
- Processing ten to twenty samples a day depending on tests needed and providing prompt results to clients.
- Maintains all proper equipment in the soils lab. Verifying lab equipment was calibrated and up to federal code.

Assistant to Academic Advisors

May 2013-Dec 2014

University of Nevada-Reno

- Led and organized activities for the advising center such as orientation, registration, and weekly group advising.
 - Answered in person, phone, and email inquiries regarding the Engineering programs as well as the university.
 - Provided students with skills to create the most efficient schedule to best fit their needs.
 - Worked directly with the academic advisors to evaluate the Engineering program through a student's perspective
 - Engaged incoming, transferring, continuing, prospective, and undecided students with any questions related to the Engineering program.
 - Informed students about class registration, credit requirements, and maintaining status in the Engineering program.
-

OTHER EXPERIENCE

Front Desk Representative

May 2012 - May 2013

Silver Legacy Hotel and Casino

- Made sure all guests needs were met during demanding and busy holidays.
- Answered in person and phone inquiries about daily rates of the hotel and events happening around town.
- Reviewed accounts and charged guests for correct amounts during their stay, compensating, if necessary, for any issues that they may have had during their stay.
